Dear Hugh

**RE: Endorsement of the Sydney Metro Western Sydney Airport, Advanced and Enabling Works, Footbridge St Marys Construction Environmental Management Plan, Rev 01**

Thank you for providing the following document for Environmental Representative (ER) review and approval in accordance with MCoA A32(j) of the Sydney Metro Western Sydney Airport project (SSI – 10051 July 23, 2021):

- *Sydney Metro Western Sydney Airport – Advanced and Enabling Works, Footbridge St Marys Construction Environmental Management Plan Revision 01 dated 15/05/2023 (CEMP Rev 01).*

As an approved ER for the Sydney Metro Western Sydney Airport project, I have reviewed the CEMP Rev 01:

It is noted that:

- Previous versions of the documents have been reviewed and updated following comments from the ER.
- Sydney Metro have also reviewed and commented on the relevant document
- The water reuse plan will require further development prior to using or interacting with rainwater or groundwater.
- The document is considered to contain the information and consultation required.

Accordingly, as an approved ER for the Sydney Metro Western Sydney Airport project, I conditionally endorse the CEMP with the requirements in or under the Infrastructure Approval and the undertakings made in the documents listed in Condition A1, with the exception of the Water Reuse Plan which must be further developed prior to using or interacting with water sources.

Yours sincerely

Alex Gale  
Environmental Representative – Sydney Metro Western Sydney Airport
